#### MEMORANDUM

TO: Dr. Nancy S. Barrett, Provost, The University of AlabamaDr. Arol R. Augsburger, Interim Provost, The University of Alabama at BirminghamDr. Lewis R. Radonovich, Provost, The University of Alabama in Huntsville

Charles R. nan

**FROM:** Charles R. Nash

**DATE:** January 4, 2001

Please find attached a packet of items that has been developed as a part of our system-wide Strategic Initiatives Planning process. Our process for developing these initiatives has been quite involved and has had input from a large number of faculty and administrative personnel during the past year and a half. Each recommended initiative has been reviewed several times by the Core Working Group and the Task Forces.

On November 17, 2000, the Board of Trustees approved the recommendations of the Task Forces and Core Working Group to implement the initiatives. A copy of the resolution is in the packet. The next step now is to ask our provosts to share the reports containing the initiatives with other administrative staff and faculty members on each campus. That process will take three to four weeks and will provide opportunities for wider discussions of the initiatives to ensure 1) that the goals and expected outcomes are reasonably clear, 2) that the initiatives are assigned to the appropriate individuals or groups, 3) that the measures of success are reasonable, and 4) that the timelines for measuring progress towards the goals and expected outcomes are appropriate.

Each provost is asked to provide feedback to the Vice Chancellor for Academic Affairs on the items listed in the paragraph above by Wednesday, January 31, 2001. Following that submission, the System Academic Council will make another review of the initiatives before the Chancellor submits them to the presidents and System Office staff members for implementation. Thank you and all UA System team members who have already participated in the development of these initiatives and to those who will participate in their implementation in order to enhance effectiveness through collaboration within our System and with other educational entities in Alabama.

Office of the Chancellor

#### MEMORANDUM

To: Elected Members of the Board of Trustees

From: Thomas C. Meredith

Date: November 13, 2000

Subject: Strategic Initiatives

One of the charges you gave me in February 1997 was to find more ways for our campuses to work together. We initiated a process to assist in that directive in Spring 1998.

Members of the Board at that time will recall that we launched a Strategic Initiatives Planning Process by hosting a meeting in Birmingham that involved Trustees, Presidents, Provosts, Vice Presidents, Deans, Faculty, and System Office Senior Staff. We utilized an outside consultant to help us think about the future and to lead us in an exercise to determine our strengths and weaknesses as a System. The general reaction to that day was very positive.

We followed that session with a series of meetings involving the Presidents, Provosts, Faculty Senate Presidents, and Senior Staff from the System Office. We engaged another consultant to assist us in developing strategic initiatives for The University of Alabama System whereby our three universities could work together not only to enhance our institutions, but our State as well. This group decided that our collaborative efforts could be broken down into three task forces: Strategic Collaboration-Academic, Strategic Collaboration-Administrative, and Improving the Overall State of Teaching and Learning in Alabama P-16 (pre-school through graduate education).

Task forces comprised of individuals from the three campuses then began to explore each of these areas in tandem with a list of possible areas of collaboration.

Each task force was asked to answer five key questions related to each initiative: 1) Expected outcomes; 2) Enabling conditions; 3) Who would implement the initiative; 4) How would success be measured; and 5) When the initiative would be completed. Memo to Board of Trustees November 13, 2000 Page Two

When the task forces completed their work, Dr. Charles Nash and Dr. Chuck Anderson from our staff conducted an extensive review of their work and brought me a final draft for review. After additional work was completed utilizing the expertise of the leadership of the various task forces, two meetings were held with the Presidents, Provosts, Faculty Senate Presidents, and task force leaders to determine if additional changes were necessary before bringing the product to the Board.

Enclosed is the outcome of the steps outlined above. Although there are still refinements to be made, I am hopeful you will be pleased with the direction we are recommending. I believe it is important to have Board endorsement before we proceed to implementation.

Dr. Nash and Dr. Anderson will provide a brief overview at the Academic Affairs and Planning Committee meeting on Friday morning.

Although I will make this comment at the Committee meeting and the Board meeting, I want you to know how encouraged I am with the cooperative spirit demonstrated among our three universities on these important topics. We truly have three outstanding universities filled with outstanding professionals, and we are blessed with excellent leadership from the top throughout the campuses.

Please call if you have questions or comments before Friday.

#### The University of Alabama System

#### **Strategic Initiatives Planning Process**

#### Resolution

Whereas, The University of Alabama System embarked upon a Strategic Initiatives Planning Process; and

WHEREAS, several current members of the Board of Trustees joined Presidents, Provosts, Vice Presidents, Deans and Faculty from UA, UAB and UAH and the System Office Senior Staff for a kick-off of the System-wide strategic planning activity in a meeting at the Medical Forum in Birmingham; and

Whereas, from the outset the purpose of the Process has been to find additional opportunities for collaboration among the institutions in The University of Alabama System, thereby better utilizing the strengths of each campus and identifying strategies to enhance efficiency, effectiveness and cooperation throughout the UA System; and

WHEREAS, an additional purpose was to identify pre-school through graduate educational needs in the State of Alabama and to develop plans to address those needs appropriate for institutions of higher education; and,

WHEREAS, following the initial session in early 1998, a series of meetings was held involving the Presidents, Provosts, Faculty Senate Presidents and System Office Senior Staff and this group determined that the collaborative efforts could be grouped into three key areas of strategic collaboration involving academics, administration and improving P-16 education in the State of Alabama; and

WHEREAS, subsequently, Task Forces were appointed comprised of individuals from the UAS campuses who began exploring the three targeted areas listed above and establishing goals, implementation plans, measures of success and a timeline for each; and

WHEREAS, a set of recommendations from the Task Forces has been reviewed by campus leadership and submitted to the Chancellor for implementation through institutional collaboration; and

WHEREAS, the Chancellor desires that the Board of Trustees be informed of the recommendations and give its support of them;

NOW, THEREFORE, BE IT RESOLVED that the Board of Trustees of The University of Alabama System endorses the recommendations of the Strategic Initiatives Planning Process and encourages the Chancellor and other members of the administration and faculty to implement the recommendations to the extent possible in order to achieve the goals identified within each recommendation;

BE IT FURTHER RESOLVED that the Board desires to be kept informed, on a periodic basis, of progress towards achieving the goals in the Strategic Initiatives recommendations;

BE IT FURTHER RESOLVED that the Board of Trustees of The University of Alabama System expresses its sincere appreciation to all individuals who have participated in the Strategic Initiatives Planning Process.

> Approved by The Board of Trustees of The University of Alabama November 17, 2000

# **The University of Alabama System** Strategic Planning Initiatives Task Force #1 "Strategic Collaboration in Academic Programs Among UA System Institutions"

(Revised January 3, 2001)

|         | nmended Strategic | Evaluate all new academic degree programs for collaboration   |
|---------|-------------------|---|
| Initiat | tive Number 1     |   |
| Ι.      | Expected          | a-Each new undergraduate and graduate program will be reviewed by each                                    |
|         | Outcome(s)        | University in the System to determine whether collaboration would be<br>mutually beneficial and feasible  |
|         |                   | b-Collaboration is recommended in cases where joint, cooperative or shared                                |
|         |                   | academic programs are beneficial to each of the participating institutions<br>and to the State of Alabama |
| II.     | Enabling          | a-Disclose plans for new programs early in the program planning process by                                |
|         | Condition(s)      | distributing campus planning documents to the provosts and relevant deans                                 |
|         |                   | and department chairs   |
| III.    | To be             | a-(Department heads) and program faculty will be responsible for  |
|         | Implemented by    | developing the details of the collaboration   |
| IV.     | Measures of       | a-Description of planned collaboration in NISPs or evidence that programs                                 |
|         | Success:          | have been reviewed by campuses, but decided not to participate  |
|         | Accountability    | b-Incorporate results of evaluation into proposal submitted to the Board of                               |
|         | -                 | Trustees  |
| V.      | Time Line         | a-Process to begin in 2001  |

) in each item III designates individual or group primarily responsible for the activity. (

| Recor   | nmended Strategic | Encourage intra-campus and intercampus faculty participation in                 |
|---------|-------------------|---|
| Initiat | tive Number 2     | dissertation committees and similar activities                                  |
| I.      | Expected          | a-Increased opportunities for faculty to participate in disciplinary activities |
|         | Outcome(s)        | system-wide   |
|         |                   | b-Increased breadth of expertise of thesis and dissertation committees          |
| II.     | Enabling          | a-Appoint faculty from other campuses to graduate faculty or honor              |
|         | Condition(s)      | appointments at other campuses  |
|         |                   | b-Identify and publicize opportunities for participation on dissertation        |
|         |                   | committees  |
|         |                   | c-Provide lists of interested faculty and their research focus                  |
| III.    | To be             | a-Graduate deans and (program directors)  |
|         | Implemented by    |   |
| IV.     | Measures of       | a-Notification of graduate program directors of the opportunity to              |
|         | success:          | participate in thesis and dissertation committees on other UAS campuses         |
|         | Accountability    | b-Posting of graduate faculty and their areas of interest on university         |
|         |                   | websites  |
|         |                   | c-Increased numbers of faculty from different campuses appointed to thesis      |
|         |                   | and dissertation committees.  |
|         |                   | d-Annual report of intra-and inter-campus interdisciplinary participation by    |
|         |                   | graduate deans  |
| V.      | Timeline          | a-Notification of graduate program directors: January 2001                      |
|         |                   | b-Posting of graduate faculty interest and expertise: June 2001                 |
|         |                   | c-Increased participation: evident by June 2002                                 |

| Recommended Strategic     | Determine which campus-unique programs could be delivered to             |
|---------------------------|--|
| Initiative Number 3       | other UAS campuses.  |
| I. Expected Outcome(s)    | a-Increased access to campus unique programs                             |
| II. Enabling Condition(s) | a-Catalog deliverable unique programs                                    |
|                           | b-Provide academically appropriate, convenient, and cost-effective       |
|                           | mechanisms for program delivery  |
|                           | c-Identify student interest on other campuses                            |
| III. To be Implemented    | a-Initiated by the program faculty with the support, cooperation, and    |
| by                        | coordination of the Provosts and relevant deans and (department chairs)  |
| IV. Measures of success:  | a-Identification of appropriate programs at each campus                  |
| Accountability            | b-Determination of appropriate methods of program delivery               |
|                           | c-Circulation of lists of suitable programs to other campuses for review |
|                           | d-Assessed need for distance delivery of programs                        |
|                           | e-Updated inventory of distance learning courses and programs reported   |
|                           | on UAS web site  |
| V. Timeline               | a-Review of programs and assessment of suitable delivery methods on each |
|                           | campus: Beginning January 2001   |
|                           | b-Distribution of lists: Upon completion of reviews of programs          |

| Recor  | nmended Strategic | Explore and define opportunities for collaboration in research as well as       |
|--------|-------------------|---|
| Initia | tive Number 4     | in cooperative and shared academic programs                                     |
| I.     | Expected          | a-Opportunities for collaboration in current programs                           |
|        | Outcome(s)        | b-Collaboration is recommended when beneficial to each of the participating     |
|        |                   | institutions  |
| II.    | Enabling          | a-Hold topical workshops sponsored by UAS with nominations of topics by         |
|        | Condition(s)      | faculty, department chairs, and deans   |
| III.   | To be             | a-Initiated by the program faculty with support, cooperation, and collaboration |
|        | Implemented by    | of the Provosts and relevant deans and (department chairs)                      |
| IV.    | Measures of       | a-Development and distribution of a request for workshop proposals              |
|        | success:          | b-Produce an annual report of activities  |
|        | Accountability    |   |
| V.     | Timeline          | a-Call for proposals  |
|        |                   | b-Review and scheduling of workshops  |
|        |                   | c-Completion of workshops and reports   |
|        |                   | d-Assessment of program success   |

| Recor   | nmended Strategic | Develop initiatives for distributed learning                                 |
|---------|-------------------|--|
| Initiat | tive Number 5     |  |
| I.      | Expected          | a-Increased availability of courses through distributed learning             |
|         | Outcome(s)        | methodologies  |
|         |                   | b-Development of catalog and benchmarks for technology delivered             |
|         |                   | courses  |
| II.     | Enabling          | a-Hold system-wide conferences for faculty and administrators to discuss     |
|         | Condition(s)      | technical and policy issues and to share experience and knowledge            |
|         |                   | b-Facilitate and streamline the process for submitting courses to SREB       |
|         |                   | c-Improve marketing of distance learning courses                             |
| III.    | To be             | a-Program committee of (faculty), technical representatives, administrators, |
|         | Implemented by    | and SREB representatives from each campus, with System Office                |
|         |                   | providing logistical support   |
| IV.     | Measures of       | a-Establishment of a system-wide conference schedule and conference          |
|         | Success:          | agendas  |
|         | Accountability    | b-Development of a proposal for streamlining SREB course submission by       |
|         |                   | SREB representatives   |
|         |                   | c-Increased UAS listings on the SREB electronic campus                       |
|         |                   | d-Increased enrollment in distance education courses and programs            |
| V.      | Timeline          | a-Development of conference schedule and agenda                              |
|         |                   | b-Development of proposal to streamline submissionc-Increased listing on     |
|         |                   | the SREB electronic campus   |
|         |                   | d-Increased enrollment in distance education                                 |

#### The University of Alabama System Strategic Planning Initiatives Task Forces #2 "Strategic Collaboration in Administrative Operations Among UA System Institutions" (Revised January 3, 2001)

| Recommended Strategi<br>Initiative Number <u>1</u> | of Alabama System, all higher education and eventually all education in the state of Alabama, for the purpose of developing a strategic resource to deliver instruction, conduct research, and provide public service throughout the state.   |
|--|---|
|  | The core broadband circuits interconnecting the three UA System institutions<br>(Gulf Central Gigapop - GCG) and the existing Alabama Research and Education<br>Network provide an excellent nucleus for a statewide network for all of education.<br>This initiative envisions building on the excellent work and considerable success of the<br>Gulf Central Gigapop working group and scaling the core network into a statewide<br>network. The Gulf Central Gigapop is an exemplary cooperative effort of the three<br>University of Alabama System campuses and the Alabama Research and Education<br>Network. |
| I. Expected  | a-Sustained broadband connectivity among UAS campuses with the capacity and quality   |
| Outcome(s):  | of service required to support the institutions' needs;<br>b-Expansion of broadband connectivity to all Alabama research universities;  |
|  | c-Further expansion to all higher education;  |
|  | d-Eventual expansion to all other education in the state of Alabama;  |
|  | e-Development of campus Internet2 applications working groups to promote  |
|  | development of Internet2 applications, publicize the availability of resources and grant  |
| II Enchling  | opportunities and facilitate technical and application assistance.a-Continued support by the UA System and other institutions for high performance  |
| II. Enabling<br>Condition(s):                      | networking;   |
|  | b-Additional funding from the State of Alabama to aggregate and expand existing network<br>infrastructures into a robust state-wide broadband network providing high speed<br>connectivity for all of education or a combined infrastructure for education and state<br>government; and   |
|  | c-Continuation of the network operations center services provided by ASA/AREN for<br>the UA System (GCG) backbone, and their baseline network services to education.<br>Additional grant funding to expand the high performance backbone to other Alabama   |
| III. To Be   | research universities;a-UA System Vice Chancellor for Information Technology and Outreach and the Gulf  |
| Implemented  | Central Gigapop working group as expanded to include broader representation of  |
| By:  | Alabama higher education working with the new State of Alabama Office of Information  |
|  | Technology and the Alabama Research and Education Network.  |
|  | b-Appropriate campus academic officers and faculty  |
| IV. Measures of                                    | a-Continuation of broadband connectivity for UA System  |
| Success  | b-Number of research institutions connected to the broadband backbone   |
|  | c-Securing Federal funding to support Internet2 applications  |
|  | d-Significant increase in UA System Internet2 applications/use  |
| V. Timeline  | Continuous with annual review of progress being made toward the development of a  |
|  | sustained statewide high performance network  |

| Recommended              | Initiate a comprehensive tri-campus Information Technology  |
|--------------------------|---|
| Strategic Initiative     | Collaboration effort to:  |
| Number $\underline{2}$ : | 1-permit increased sharing of resources   |
|                          | 2-foster collaboration among faculty, students, and staff   |
|                          | 3-develop the technological infrastructure necessary to   |
|                          | compete in the developing higher education marketplace  |
| VI. Expected             | This broadly defined collaboration will address on a continuing basis opportunities for   |
| Outcome(s):              | coordination of Information Technology initiatives among the three University of  |
|                          | Alabama System campuses, and where possible and practical with other institutions of  |
|                          | higher education in the state and region as well as K-12. This initiative will build on the   |
|                          | considerable success of the System purchasing task force and other ongoing information  |
|                          | technology cooperative activities. Specific outcomes of the collaboration are expected to   |
|                          | include:  |
|                          | a-Development of a framework for Information Technology planning at the System and  |
|                          | campus levels;  |
|                          | b-Develop System-wide Information Technology policies that are compatible with and  |
|                          | complementary to individual campus policies (e.g. appropriate use, e-mail, etc);<br>c-Leverage the combined buying power of the campuses through System-wide and/or         |
|                          | statewide purchasing contracts for PCs, networking hardware and services, software (e.g.  |
|                          | Microsoft), and other major acquisitions where two or more campuses can realize savings   |
|                          | or improved services;   |
|                          | d-Centralize license and contract review for combined purchasing initiatives;   |
|                          | e-Increase awareness of and access to specialized information resources through a shared resource model;  |
|                          | f-Jointly test and evaluate new technologies with consideration of their potential for integration into Systemwide and statewide efforts;                                   |
|                          | g-Improve availability of timely information on legislative and state government matters,   |
|                          | and coordinate representation and influence on those matters;   |
|                          | h-Identify best practices that can be adapted for educational environments;   |
|                          | i-Develop a continuous information exchange among the campus IT   |
|                          | organizations to monitor opportunities for cooperation on specific IT projects  |
|                          |   |
|                          | (e.g. security);  |
|                          | j-Actively participate in the formation of a formal Alabama Videoconferencing Network<br>to further utilize the considerable videoconferencing resources in the state; and, |
|                          | k-Coordinate data warehouses to maximize the availability of information needed by the  |
|                          | Board of Trustees   |
|                          |   |

| VII.  | Enabling      | a-Continuation of the Information Technology Council comprising the principal campus           |
|-------|---------------|--|
|       | Condition(s): | IT officers and the Vice Chancellor for Information Technology as a standing                   |
|       |               | collaborative work group for the purpose of guiding this broad initiative and to serve as      |
|       |               | an ongoing information exchange;   |
|       |               | b-Ad hoc or standing task force groups as appropriate for the purpose of implementing          |
|       |               | specific components of this initiative; and  |
|       |               | c-Utilization and involvement of existing System groups including the executive officers,      |
|       |               | purchasing task force, etc.  |
| VIII. | To Be         | a-Vice Chancellor for Information Technology and Outreach                                      |
|       | Implemented   | b-Information Technology Council   |
|       | By:           | c-Purchasing Task Force  |
|       |               | d-Appropriate campus officers  |
|       |               | e-State IT leadership  |
| IX.   | Measures of   | a-Award a statewide contract to multiple vendors for PC purchase throughout the System         |
|       | Success       | and higher education to include K-12 if feasible, resulting in significant additional savings; |
|       |               | b-Award a statewide contract for the purchase of networking hardware and services for          |
|       |               | use by all higher education resulting in significant additional savings;                       |
|       |               | c-Negotiate a System-wide license with Microsoft;  |
|       |               | d-Begin a tri-campus Public Key Infrastructure initiative to address the growing concern       |
|       |               | about security of system IT resources;   |

|                          | mmended Strategic<br>tive Number <u>3</u> : | Develop a strategy to ensure that The University of Alabama System is<br>competitive and current in its student, faculty, and staff access to information                      |
|--------------------------|---|--|
| mna                      | 1 = 1 = 1 = 1                               | technology.  |
| v                        | Exported                                    |  |
| л.                       | Expected                                    | Identify and evaluate the information resources needed and used by all members of the  |
|                          | Outcome(s):                                 | UA System community, and establish a core set of guidelines recognizing the unique role<br>and nature of the campuses.   |
|                          |   | A core set of four guidelines has been identified by the Information Technology  |
|                          |   | Council for all three campuses. Additional of other guidelines will be an individual campus option.  |
|                          |   | a-Percentage of courses using IT to enhance the learning experience. A survey will be conducted in the Spring, 2001 term to identify the base level use of key IT resources in |
|                          |   | instruction. Goals will then be established for selected indicators in subsequent years.<br>b-Availability of computing resources to students:                                 |
|                          |   | <ol> <li>Achieve a desired ratio of general access computers to FTE or headcount based<br/>on peer institutions, and maintain currency of these resources;</li> </ol>          |
|                          |   | (2) Provide high speed network access in all residence halls and student laboratories;<br>and  |
|                          |   | (3) Provide assistance for and support for students to develop and use computer competencies.  |
|                          |   | <ul><li>c-Availability of computing resources for faculty and staff including:</li><li>(1) A high speed network connection;</li></ul>  |
|                          |   | (2) A current computer (capability to be defined on a college/department level) with an established replacement cycle;   |
|                          |   | (4) Provide assistance and support for faculty use of Information Technology in instruction and research;  |
|                          |   | <ul><li>d-Availability of Web based processes to faculty, staff, and students to include:</li><li>(1) Application for admission;</li></ul>                                     |
|                          |   | (2) Application for financial aid;   |
|                          |   | (3) Registration;<br>(4) Drop add:   |
|                          |   | (4) Drop-add;<br>(5) Chapting grades;  |
|                          |   | <ul><li>(5) Checking grades;</li><li>(6) Paying bills;</li></ul>   |
|                          |   | (7) Degree audit;  |
|                          |   | <ul><li>(7) Degree audit,</li><li>(8) Updating addresses and personal information;</li></ul>   |
|                          |   | (9) Changing benefit plans; and  |
|                          |   | (10) Purchasing and other business processes.  |
| XI.                      | Enabling                                    | a-Develop reasonable definitions of life cycles for IT resources at the campus and   |
|                          | Condition(s):                               | departmental levels;   |
|                          |   | b-Support and funding for key technology capabilities;   |
|                          |   | c-Active involvement of faculty, administrators, staff and students to develop a   |
|                          |   | consensus on IT needs;   |
| To Be Implemented<br>By: |   | Appropriate administrators at the campus level   |

|                          | Success                                     | and capabilities;  |
|                          |   | b-Achievement of critical capabilities identified in the evaluation  |
| XIII.                    | Timeline                                    | a-Initial evaluation and identification by July 1, 2001  |
|                          |   | b-Annual review of progress toward development of critical capabilities  |

### The University of Alabama System **Strategic Planning Initiatives Task Force #3**

"Improving the Overall State of Teaching and Learning in Alabama – P-16" (Revised January 3, 2001)

| Recommended Strategic<br>Initiative Number 1 | • Develop a central system to coordinate and provide information<br>about what is happening at the 3 campuses so we have an<br>accurate up-to-date list of activities and service ventures involving<br>P-16 education |
|--|--|
| I. Expected Outcome                          | a-Provide information for public relations use   |
| -  | b-Provide data on the contributions all 3 campuses make to Alabama   |
|  | and P-16 education   |
| II. Enabling Condition                       | a-Institutions collect and maintain current information collaboration  |
|  | and services to P-12   |
|  | b-Some office needs to collect and organize the information  |
| III. To Be Implemented                       | a-Initiated by the System Academic Affairs Office  |
| By   |  |
| IV. Measures of Success:                     | a-Targeted and frequent press releases   |
| Accountability                               | b-More information to support our political agenda   |
| V. Timeline                                  | a-Should be an ongoing semi-annual report once a process is  |
|  | in place   |

) in each item III designates individual or group primarily responsible for the activity. (

| Recommended Strategic  | • Serve as a coordinating resource to help identify for P-12          |
|------------------------|---|
| Initiative Number 2    | education potential sources of funding from foundations and           |
|                        | other business-related enterprises interested in supporting the       |
|                        | public schools  |
| I. Expected Outcome    | a-More funding opportunities for P-12 schools. Closer collaboration   |
|                        | across P-16 in seeking external funds                                 |
| II. Enabling Condition | a-Institutions centralize information on foundations and businesses   |
|                        | interested in supporting P-12 education and collaboration across P-12 |
|                        | and higher education  |
|                        | b-Identify contacts at the State Department of Education and each     |
|                        | school district interested in funding opportunities                   |
| III. To Be             | a-Development and research offices on each campus                     |
| Implemented By         |   |
| IV. Measures of        | a-More joint projects across P-16 and increased funding to support P- |
| Success:               | 16 initiatives  |
| Accountability         |   |

| 1. Expected Outcome                          | b-More faculty from across the university involved in the elementary<br>and secondary schools   |
| II. Enabling Condition                       |   |
|  | a-Include and count activities with schools as part of faculty workload<br>b-Reward involvement with merit pay, when appropriate<br>c-Make clear statements about how administrators view university<br>collaboration with P-12 as important  |
| III. To Be                                   | a-Chancellor and presidents   |
| Implemented By                               |   |
| IV. Measures of                              | a-Faculty who are involved with P-12 schools receive public   |
| Success:                                     | recognition and are rewarded  |
| Accountability                               | b-Policies rewritten to support this involvement  |
| V. Timeline                                  | a-Ongoing process   |

| Recommended<br>Strategic Initiative<br>Number 4 | <ul> <li>Expand and Enhance Partnerships with Elementary and Secondary<br/>Schools and Develop Rural School and Urban School Initiatives with<br/>Partners. Participate in the Enhancement of K-12 Teacher Assessment<br/>Data:</li> <li>Identify and implement models that have viability to increase<br/>university and P-12 partnerships with a focus on State priorities (at</li> </ul> |
|---|---|
| I. Expected                                     | the current time, reading, science, mathematics, and technology).<br>a-Formal partnerships established with P-12 schools  |
| Outcome   | b-More faculty involvement with Statewide initiatives   |
| II. Enabling                                    | a-Support for partnerships, both financial and moral  |
| Conditions                                      | b-Seek funding to support faculty participation during the summer   |
|   | months with Statewide initiatives   |
| III. To Be                                      | a-(Provosts) and other academic officers at campuses  |
| Implemented By                                  |   |
| IV. Measures of                                 | a-Establishment of formal partnerships  |
| Success:  | b-State, regional, and national recognition of partnership activities   |
| Accountability                                  |   |
| V. Timeline                                     | a-One to three years to set agenda and establish partnerships and   |
|   | priorities  |

| Recommended<br>Strategic Initiative<br>Number 5 | <ul> <li>Expand and Enhance Partnerships with Elementary and Secondary<br/>Schools and Develop Rural School and Urban School Initiatives with<br/>Partners. Participate in the Enhancement of K-12 Teacher Assessment<br/>Data:</li> <li>Continue professional development opportunities for university<br/>faculty to help them understand how their research and work within</li> </ul> |
|---|---|
|   | the university setting can benefit and assist P-12 education  |
| I. Expected                                     | a-More collaboration  |
| Outcomes  | b-Better understanding of each other's roles and how we impact P-12   |
|   | faculty, administrators, and programs   |
|   | c-Use of high school feed-back reports and discussions between  |
|   | university and high school faculty and administrators to enhance student  |
|   | success in college  |
| II. Enabling                                    | a-Professional development activities need to be provided   |
| Conditions                                      | b-Faculty must be encouraged to participate   |
| III. To Be                                      | a-(Provosts), academic deans  |
| Implemented By                                  |   |
| IV. Measures of                                 | a-How many faculty attend and then pursue research activities with P-12   |
| Success:  | schools   |
| Accountability                                  |   |
| V. Timeline                                     | a-Ongoing with annual reports   |

| Recommended<br>Strategic Initiative<br>Number 6 |                | <ul> <li>Expand and Enhance Partnerships and Clarify and Enhance Working<br/>Relationships with Two-year Community, Junior, and Technical Colleges.</li> <li>Develop Improved Ways of Measuring the Effectiveness of Two- and<br/>Four-year Colleges:</li> <li>Enhance direct feedback to community colleges concerning the</li> </ul> |
|---|----------------|--|
|   |                | <ul> <li>performance of their students</li> <li>Share more information concerning syllabi and course expectations at our 3 campuses with those community colleges providing the greatest proportion of our transfer students</li> </ul>  |
| I.  | Expected       | a-More realistic expectations of professional requirements at the 3  |
|   | Outcomes       | campuses   |
|   |                | b-Better information on what is working effectively for transfer students  |
|   |                | and areas we need to modify or improve   |
|   |                | c- More consistent objectives and requirements for similar courses taught  |
|   |                | at all campuses  |
|   |                | d-Better prepared transfer students  |
| II.   | Enabling       | a-Better data collection on each campus to allow for the easy  |
|   | Condition      | identification of transfer students and their performance characteristics  |
| III.  | То Ве          | a-Registrars and (campus arts and sciences colleges)   |
|   | Implemented By |  |
| IV.   | Measures of    | a-Accuracy of the feedback and its usefulness to community colleges  |
|   | Success:       | b-Better cooperation and improved relationships across campuses  |
|   | Accountability | c-Better success rates among transfer students   |
| V.  | Timeline       | a-As soon as protocols can be established to identify students and data  |
|   |                | sets   |
|   |                | b-Ongoing  |

| Recommended          | Assist in Providing Distance Education Opportunities to K-12             |
|----------------------|--|
| Strategic Initiative | Institutions:  |
| Number 7             | Identify and publicize all current, available distance education         |
|                      | opportunities for students, both P-12 and higher education               |
| I. Expected          | a-Show public and legislature the scope of our offerings and             |
| Outcomes             | opportunities we provide people in Alabama                               |
|                      | b-Better inform P-12 educators and students about what is available from |
|                      | UA System campuses   |
| II. Enabling         | a-Better collection of data on all offerings                             |
| Conditions           | b-Ability to disseminate information accurately and quickly to P-12      |
|                      | educators  |
| III. To Be           | a-Continuing education heads on the 3 campuses                           |
| Implemented By       |  |
| IV. Measures of      | a-Increased recognition for our outreach efforts                         |
| Success:             | b-Increased enrollment in distance education courses and programs        |
| Accountability       |  |
| V. Timeline          | a-Ongoing with annual feedback and evaluation                            |

| Recommended          | Assist in Providing Distance Education Opportunities to K-12           |
|----------------------|--|
| Strategic Initiative | Institutions:  |
| Number 8             | • Decide how big a role the University System campuses wish to play    |
|                      | in the offering of courses for dual enrollment and dual credit to high |
|                      | school students in the State   |
| I. Expected          | a-Provide opportunities to poor and rural schools                      |
| Outcomes             | b-Enable each campus to dual enroll outstanding high school students   |
|                      | who can be recruited to our campuses                                   |
| II. Enabling         | a-Each campus must determine what it can offer for dual enrollment and |
| Condition            | who will provide the courses   |
| III. To Be           | a-(Provosts) and continuing education programs on each campus          |
| Implemented By       |  |
| IV. Measures of      | a-Enrollments in courses offered                                       |
| Success:             | b-Recruitment of more and better graduating Alabama high school        |
| Accountability       | students   |
| V. Timeline          | a-Once established, ongoing  |

| Recommended          | Assist in Providing Distance Education Opportunities to K-12        |
|----------------------|---|
| Strategic Initiative | Institutions:   |
| Number 9             | • Encourage more faculty to develop courses and programs that take  |
|                      | advantage of technology enhanced instruction via IITS, web courses, |
|                      | particularly courses that may be of interest to educators and       |
|                      | community college faculty throughout the State                      |
| I. Expected          | a-More graduate students enrolled in our courses and programs       |
| Outcomes             | b-Closer links to Alabama communities where courses are offered     |
| II. Enabling         | a-Incentives to develop IITS courses                                |
| Condition            | b-More sites to broadcast courses on each campus                    |
| III. To Be           | a-Academic affairs office on each campus                            |
| Implemented By       |   |
| IV. Measures of      | a-Increase in the number of courses offered and student enrollment  |
| Success:             |   |
| Accountability       |   |
| V. Timeline          | a-Ongoing process   |

| Recommended          | Ensure the Delivery of Effective Teacher and Administrator Preparation  |
|----------------------|---|
| Strategic Initiative | Programs:   |
| Number 10            | • Maintain and continue to support high admission standards for all     |
|                      | teacher and administrator preparation programs                          |
| I. Expected          | a-Recognition of our programs as the best in the State. Better students |
| Outcomes             | enrolled in our programs  |
|                      | b-Improved academic reputation of all our campuses                      |
| II. Enabling         | a-System and campus support for raising admission standards             |
| Condition:           | b-Resisting political pressure to lower standards because of projected  |
|                      | shortages   |
| III. To Be           | a-(System Office of Academic Affairs) and academic affairs offices on   |
| Implemented By       | each campus with policies carried out in each education program         |
| IV. Measures of      | a-State, regional, and national recognition of our programs             |
| Success:             | b-Better, more qualified students in our education programs             |
| Accountability       |   |
| V. Timeline          | a-Ongoing   |

| Recommended          | Ensure the Delivery of Effective Teacher and Administrator Preparation    |  |  |
|----------------------|---|--|--|
| Strategic Initiative | Programs:   |  |  |
| Number 11            | Provide in-service opportunities for administrators, addressing           |  |  |
|                      | performance accountability and financial accountability standards         |  |  |
|                      | • Provide linkages to university faculty in the areas of business and law |  |  |
| I. Expected          | a-Closer relationships with P-12 administrators and the State Department  |  |  |
| Outcome              | of Education  |  |  |
|                      | b-Better communication and connections across public school               |  |  |
|                      | administrators and faculty  |  |  |
|                      | c-Technical assistance made available to P-12 educators and               |  |  |
|                      | administrators  |  |  |
| II. Enabling         | a-Identify needs of school administrators                                 |  |  |
| Conditions           | b-Support business and education faculty in the development of            |  |  |
|                      | workshops for P-12 administrator  |  |  |
|                      | c-Provide a process to link business and law faculty to the schools       |  |  |
| III. To Be           | a-Interested business, education, and law faculty                         |  |  |
| Implemented By       | b-Needs assessments coordinated by the in-service centers                 |  |  |
| IV. Measures of      | a-Feedback from administrators attending the sessions                     |  |  |
| Success:             | b-More connections to schools and a reduction in legal problems and       |  |  |
| Accountability       | financial problems in P-12 schools/districts                              |  |  |
| V. Timeline          | On-going needs assessment conducted beginning 2000-2001 academic          |  |  |
|                      | year  |  |  |

# RESPONSIBILITY AND TIMELINE MATRIX (SUMMARY)

| UA System Strategic Initiative   | Responsible   | Time-line                                     |
|--|---|---|
| Academic Collaboration:  |   |   |
| 1. Evaluate all new academic degree program proposals for inter-institutional collaboration  | Department Heads  | Beginning 2001                                |
| 2. Encourage intra- and inter-campus faculty participation in dissertation committees and similar activities   | Graduate program<br>directors   | Beginning 2001<br>and ongoing                 |
| 3. Determine which campus-unique programs could and should be delivered to another UAS campus  | Department Heads  | Beginning<br>January 2001                     |
| 4. Explore and define opportunities for collaboration in research, cooperative, and shared programs  | Department Heads  | Ongoing                                       |
| 5. Develop initiatives for distributed learning offered via technology   | Provosts and Distance<br>Education heads                                  | Annual report of progress                     |
| 6. Overcome any articulation problems that might interfere with student success  | Provosts  | Annual review of experiences                  |
| 7. Explore opportunities for inter-campus cooperation<br>in the delivery of continuing education offerings,<br>especially in executive education   | Deans   | 2001 and annual reports                       |
| Administrative Collaboration:  |   |   |
| 1. Sustain, enhance, and expand high performance<br>networking for the UAS, all higher education, and<br>eventually all education in AL, for the purpose of<br>developing a strategic resource to deliver instruction,<br>conduct research, and provide public service throughout<br>the state | Vice Chancellor for<br>Information Technology<br>and GCG Working<br>Group | Continuous with<br>annual reports in<br>June  |
| 2. Initiate a comprehensive tri-campus Information<br>Technology Collaboration to permit increased sharing of<br>resources, foster collaboration, and develop competitive<br>information technology infrastructures  | Vice Chancellor for<br>Information Technology                             | Continuous with<br>annual reviews             |
| 3. Develop a strategy to ensure that the UAS is<br>competitive and current in its student, faculty, and staff<br>access to information technology  | Appropriate<br>administrators at the<br>campus level                      | July 2001 and<br>annual review of<br>progress |

| Improving the Overall State of Teaching and   |  |   |
|---|--|---|
| Learning in Alabama – P-16:   |  |   |
| 1. Develop and maintain an up-to-date record of activities and services involving our campuses, P-12, and/or two-year colleges  | Vice Chancellor for<br>Academic Affairs                      | Ongoing with<br>semi-annual<br>reports        |
| 2. Coordinate information on potential foundation and business sources for funding P-12 programs  | Development officers<br>on campuses                          | Beginning 2001                                |
| 3. Expand and enhance partnerships with P-12 rural<br>and urban schools by continuing to recognize and<br>encourage greater university faculty and staff<br>participation   | Chancellor and presidents                                    | Ongoing                                       |
| 4. With P-12, focus on state priorities, such as reading, mathematics, science, and technology  | Provosts   | Within three years                            |
| 5. Continue professional development opportunities for<br>university faculty to enable their research & service<br>activities to benefit P-12   | Provosts   | Ongoing with<br>annual reports of<br>progress |
| 6a. Provide "feedback" information to community colleges on the performance of their transfer students  | Registrars   | Ongoing annually                              |
| 6. Share syllabi and course expectations with CC faculty and administrators   | Colleges of Arts and<br>Sciences                             | Ongoing with<br>reports of<br>experiences     |
| 7. Identify and publicize existing distance education opportunities for P-12 and university students  | Continuing education heads                                   | Ongoing with annual evaluation                |
| 8. Evaluate our role in providing dual credit courses for high school students  | Provosts   | Once established,<br>ongoing                  |
| 9. Encourage faculty to develop more technology enhanced courses via the Web, IITS, etc.  | Academic<br>administrators                                   | Ongoing                                       |
| 10. Maintain and continue to support high admission standards for teacher and administrator programs  | Deans of Education<br>with support from<br>provosts and VCAA | Ongoing                                       |
| 11. Provide in-service programs for P-12 administrators<br>to develop skills related to academic performance and<br>financial accountability and provide linkages to<br>university faculty in the areas of business administration<br>and law | Colleges of Education,<br>Law, and Business                  | Ongoing                                       |

**NOTE:** Standard reporting date of June 1st of each year . . . progress reports to Board of Trustees at its Annual Meeting in September of each year.

### BOARD OF TRUSTEES SLIDE PRESENTATION NOVEMBER 17, 2000

## The University of Alabama System

Strategic Planning Initiatives:

- Academic Collaboration
- Administrative Collaboration
- Improving the Overall State of Teaching and Learning in Alabama, P-16

# Strategic Initiatives

#### Academic Collaboration

- 1) Evaluate all new academic degree program proposals for inter-institutional collaboration
- Encourage intra- and inter-campus faculty participation in dissertation committees and similar activities
- Determine which campus-unique programs could and should be delivered to another UAS campus

## Strategic Initiatives

#### Academic Collaboration

- Explore and define opportunities for collaboration in research, cooperative, and shared programs
- 5) Develop initiatives for distributed learning offered via technology
- Overcome any articulation problems that might interfere with student success

# Strategic Initiatives

#### Academic Collaboration

 7) Explore opportunities for inter-campus cooperation in the delivery of continuing education offerings, especially in executive education

# Strategic Initiatives

#### Administrative Collaboration

 Sustain, enhance and expand high performance networking for The University of Alabama System, all higher education and eventually all education in the state of Alabama, for the purpose of developing a strategic resource to deliver instruction, conduct research, and provide public service throughout the state

# Strategic Initiatives

- Administrative Collaboration
   2) Initiate a comprehensive tri-campus Information Technology Collaboration to:
- permit increased sharing of resources;
- foster collaboration; and,
- develop competitive information technology infrastructures

# Strategic Initiatives

#### Administrative Collaboration

 Develop a strategy to ensure that The UA System is competitive and current in its student, faculty, and staff access to information technology

## Strategic Initiatives

- Improving the Overall State of Teaching and Learning in Alabama, P-16
  - Develop and maintain an up-to-date record of activities and services involving our campuses, P-12, and/or two-year colleges
  - Coordinate information on potential foundation and business sources for funding P-12 programs

# Strategic Initiatives

- Improving the Overall State of Teaching and Learning in Alabama, P-16
  - 3) Expand and enhance partnerships with P-12 rural and urban schools by continuing to recognize and encourage greater university faculty participation
  - With P-12, focus on state priorities, such as reading, mathematics, science, & technology

## Strategic Initiatives

- Improving the Overall State of Teaching and Learning in Alabama, P-16
  - 5) Continue professional development opportunities for university faculty to enable their research & service activities to benefit P-12
  - Provide "feedback" information to community colleges on the performance of their transfer students
  - Share syllabi and course expectations with CC faculty and administrators

## Strategic Initiatives

- Improving the Overall State of Teaching and Learning in Alabama, P-16
  - Identify & publicize existing distance education opportunities for P-12 and university students
  - Evaluate our role in providing dual credit courses for high school students
  - Encourage faculty to develop more technology enhanced courses via the web, IITS, etc.

## Strategic Initiatives

- Improving the Overall State of Teaching and Learning in Alabama, P-16
  - Maintain high admission standards for teacher & administrator preparation programs
  - Provide in-service programs for P-12 administrators to develop skills related to academic performance and financial accountability
