

## **Student and Campus Life Committee**

Report to UA Faculty Senate of October 19, 2000 meeting

---

The committee examined statistics on the fall rush presented by the Office of Student Affairs. It requested additional data on participation in rush by students of different races. Those data are to be provided at a future meeting.

The committee received a new policy on social activities from Sybil Todd. This policy permits organizations to sponsor social activities on Thursday nights on campus and to serve alcohol to members who are of legal drinking age. Guidelines for these activities were discussed. Concerns were raised about enforcement of drinking policies. Strengths and weaknesses of the new policy were discussed.

Committee members were asked to select a subcommittee on which to serve. Subcommittees include student governance, diversity, and alcohol and drugs.
